CIS 497 Senior Project- Spring 2019

Dylan Spencer

- I am a Computer Science Major, and my primary area of focus is Software Development. I love watching projects come to life piece by piece. I enjoy playing and designing video games.

Broderick Morrissette

- I am a senior studying Information Technology with a concentration in Networking. In my spare time I love giving back to the community through mentoring and working with at risk youth.

David Bridwell

- I am a computer science major. My hobbies are 3D modeling and animation.

Christian Peavey

- I am a Computer Science Major. I would like to focus on software project management. My hobbies are playing video games, and casual programming.

Project Description and Client

Robin Fenton

President, Flight Works Alabama

Kellie Andrews

Consultant, Flight Works Alabama

- Flight Works Alabama (FWA) is an aviation education center that provides tours to the public. Multiple Tours are given each day and can be scheduled within minutes of each other. This system will allow tour guides to easily update the status and location of their tours. In the current system, the FWA is unaware of the location of tour groups or the FWA bus. The new system will allow the FWA to better control the flow of tour groups.
